

Product Kiosk

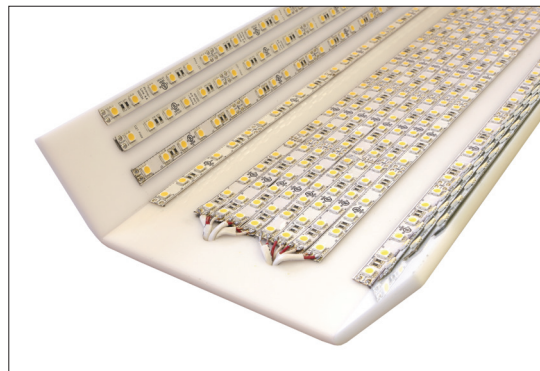

Goal: design a custom light fixture to retrofit existing underperforming LED strip lights in a demo kiosk displaying a medical imaging device

Solution: supply an ultra high output tape light array with prewired power supplies that plug into an outlet

Brightness: Alloy's fixture used multiple sections of PrimaLine™ 4.4 tape light to create a 25,000 lumen fixture

Form factor: PrimaLine 4.4 tape integrated perfectly into the client's existing molded plastic housing

Result: the features of the complex devices in the kiosk can be seen by viewers in full detail

Alloy LED Custom Solutions

The Alloy LED Custom Solutions division tailors products from our product portfolio to meet your specifications. We are LED lighting experts with a proven track record of success at creating lighting solutions for our partners that ensure their products are illuminated in the best possible way. Optimizing the light for a particular product will increase both visibility and sales. We don't just meet your needs, we exceed them.
