

Ankr® 2 In-Wall Channel

Ankr channel models are designed with a flange on either side of the channel that ensures a clean installation for in-wall applications in drywall. They are compatible a strong spring-form clip that holds the channel securely in place for both horizontal and vertical configurations. The Ankr 2 model is wide enough to accommodate several rows of Alloy LED tape light.

- Thermally-balanced design for maximum cooling
- Channel covers protect LED tape light
- Diffuser covers provide smooth light diffusion with no hotspots
- Full range of accessories for a great-looking installation
- Complete kits available to create a finished fixture
