

# TRIM LESS LIGHT ING

## MUDR 1 AND MUDR 2 CHANNELS

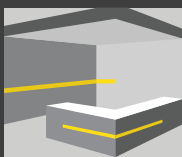

### Seamless Illumination. Endless Design Possibilities.

The Mudr trimless recessed linear LED lighting channels feature a unique, patent-pending lens design allowing for even illumination across the entire surface of the lens from one edge to the other. Offered in two sizes, the trimless channels install flush into 5/8-inch drywall to provide seamless integration into ceilings and walls, resulting in clean lines of light.

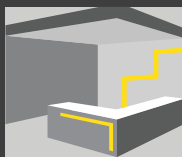

#### Endless Design Possibilities

The thoughtful design allows for seamless installations wrapping from ceiling to wall or for zig-zag and other unique configurations.
